

4th Annual NAROMI BIRD-A-THON

Show your support for Naromi and pledge a donation based on the number of bird species (e.g. Robin, Chickadee, Mallard, etc.) seen or heard in Sherman from midnight to midnight on a single day in May! Angela Dimmitt, Hunter Brawley and others will explore the woods, fields, farms, ponds and backyards of our town to see which birds are visiting us during the migration, or which call Sherman home and may be nesting. The event will take place the morning of May 10, 2008 weather permitting. Please call the Naromi office if you would like to join us.

You can pledge any amount per species for the challenge or a flat amount. Be creative! Make a special additional pledge! For instance: \$1.00 per Warbler species, \$5.00 for a Pileated Woodpecker, or \$ ___ for each Carolina Wren or Bluebird. Pledge for your favorite bird! Have some fun and really challenge the team!

How many might we find? Last May we found 90 species, adding several to the list of "The Birds of Sherman" – a challenge we hope to beat this year!
